

MEET RABADIYA

AI Product Owner | Program Manager | Product Manager

☎ +91 63556 92613 📍 Ahmedabad, Gujarat, India ✉ rabadiyameet09@gmail.com

🌐 [LinkedIn](#) 🌐 [GitHub](#) 🌐 [Portfolio](#)

Profile

Forward-thinking **AI Product Owner** with a proven record of owning end-to-end product delivery across AI-powered platforms, full-stack digital solutions, and data-driven systems. Adept at defining **product vision**, executing **product roadmaps**, driving **Agile/Scrum** delivery, and aligning cross-functional stakeholders toward measurable business outcomes. Shipped production AI systems — including a **RAG-based intelligent code generation platform** and a **voice-activated AI automation assistant** — bridging complex technical capability with strategic business value. Combines strong **AI/ML proficiency** with **product lifecycle thinking**, stakeholder management, and **data-driven decision-making** to lead **digital transformation** initiatives with ownership, analytical rigor, and executive-level clarity.

Core Competencies

- Product Ownership & Strategy
- Stakeholder Management
- Cross-Functional Leadership
- AI & Machine Learning
- Product Roadmapping
- Backlog Prioritization
- Agile & Scrum Methodologies
- AI Governance & Risk Mgmt
- Digital Transformation
- Business Analysis
- Sprint Planning
- Data-Driven Decision Making

Education

Adani University – Faculty of Engineering Science and Technology **2023 – 2027**
B.Tech in Information and Communication Technology (7th Semester), CGPA: 7.83 *Ahmedabad, Gujarat*

The Imperial Science School **2021 – 2023**
Higher Secondary Certificate (HSC): 90.73 PR *Dhoraji, Gujarat*

- GUJCET: 91.24 PR
- JEE Main: 85.88 PR

Shree Sardar Patel Vidya Mandir (Patel Boarding) **2018 – 2021**
Secondary School Certificate (SSC - 10th), 95.96 PR *Rajkot, Gujarat*

Internships

Northstar **Feb 2026 – Present**
Software Engineer Intern *Onsite, Ahmedabad, Gujarat*

- **Engineered** an **AI-powered Shopify Code Generator** leveraging **RAG (Retrieval-Augmented Generation)**, image input, and full admin configuration — owning the product concept, technical architecture, and end-to-end delivery to automate production-ready storefront code generation from UI screenshots and eliminate manual development cycles for e-commerce teams.
- **Directed** end-to-end e-commerce storefront development using Shopify themes, metafields, and platform customisation workflows — **gathering business requirements**, translating them into technical specifications, and delivering high-converting storefronts aligned with client objectives and brand strategy.
- **Owned** the design and delivery of user-centric web interfaces — applying **UI/UX thinking**, accessibility standards, and performance best practices to define interaction patterns, optimise user journeys, and ship scalable digital experiences across all device types.

ShadowFox **December 2025**
Full-Stack Web Developer Intern *Remote*

- **Owned** full-stack delivery of a production-grade web application — independently scoping requirements, architecting the solution, and managing end-to-end development from design through deployment and quality assurance.
- **Delivered** responsive, accessible frontend interfaces integrated with backend APIs, applying **Agile** development workflows and software engineering best practices to ensure cross-device reliability, performance, and scalability.

ShadowFox **December 2025**
Python Developer Intern *Remote*

- **Independently scoped, designed, and delivered** multiple Python-based software solutions — demonstrating initiative, self-directed **problem decomposition**, and iterative delivery discipline aligned with Agile principles.
- **Designed** a **Web Scraper** for automated structured data extraction — identifying the business use case, defining the data schema, and implementing scalable extraction logic for titles, links, and images across target web sources.

Technical Skills

- Product & Agile:** Product Roadmapping, Backlog Prioritisation, Agile/Scrum, Sprint Planning, User Story Definition, Feature Prioritisation, Business Requirements Gathering, Stakeholder Alignment, Business Analysis, User Research, Change Management
- AI, Data & Analytics:** Machine Learning, Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, PowerBI, Tableau, WEKA, RAG, Google Colab, Jupyter Notebook
- Programming Languages:** Python, Java, C
- Frontend:** HTML, CSS, JavaScript, Tailwind CSS, React, XML
- Backend & Databases:** FastAPI, REST APIs, PHP, MySQL, PostgreSQL, Supabase
- CS Fundamentals:** DSA, ADA, OS, DCCN, OOPS (Java), DBMS, ML
- Tools & Platforms:** Git, GitHub, Jira, Vercel, Jupyter Notebook, Google Colab, Cisco Packet Tracer, WEKA, AutoCAD, MATLAB, Shopify, Google Stitch
- Soft Skills:** Team Leadership, Strategic Planning, Analytical Problem-Solving, Ownership Mindset, Agile Learning, Adaptability, Time Management, Cross-functional Collaboration

Projects

- RMDU Mobiles – Smartphone Recommendation Platform** | *React, Tailwind CSS, FastAPI, PostgreSQL* **2026 – Present**
- **Conceived the end-to-end product strategy** — conducting user research, mapping the customer decision journey, and translating insights into a structured recommendation platform aligned with genuine purchase needs.
 - **Directed** complete product design and development independently — owning the UX architecture, information hierarchy, and interaction design to deliver a modern, intuitive interface that reduced user decision complexity.
 - **Defined** a five-category product taxonomy (budget, gaming, camera, battery, best overall) and drove delivery of budget filtering, specification pages, and side-by-side comparison tools to address key decision blockers.
 - **Managed** the full product lifecycle from ideation through deployment — maintaining performance benchmarks and scalability across the entire delivery cycle.
 - **Links:** [Visit site](#) | [Source Code](#)
- Cafe Management System (Odoo × Adani Hackathon ’26)** | *MERN Stack* **January 2026**
- **Led** end-to-end product delivery of a restaurant POS system under a 24-hour deadline — defining solution architecture, stakeholder workflows, and feature scope across customers, cashiers, kitchen staff, and administrators.
 - **Implemented** core features including table selection, menu browsing, cart management, and real-time order tracking, alongside cashier, kitchen, and admin workflows for billing, live order status, and reporting.
 - **Managed** feature prioritisation, risk mitigation, and final integration — delivering a fully functional, demo-ready product within the competitive hackathon timeframe.
 - **Links:** [Visit site](#) | [Source Code](#)
- J.A.R.V.I.S. – AI Voice-Activated Desktop Automation Assistant** | *React, Tailwind CSS, FastAPI* **2025**
- **Conceived and owned the product vision** — identifying productivity gaps in desktop workflows, defining an AI product roadmap spanning NLP-based command processing, multi-domain automation, and system-level task execution.
 - **Designed and delivered** a centralised React/FastAPI management dashboard — defining information architecture and admin workflows to provide real-time system visibility, configuration control, and operational management.
 - **Implemented** a full AI capability stack — speech recognition, wake-word detection, TTS, multilingual NLP, and intelligent command routing — automating over **20 system-level task categories**.

Achievements

- Finalist among **1,500+ registrations** in **Odoo × Adani University Hackathon ’26** — led team strategy, coordinated cross-functional execution, and delivered a fully working product under a strict 24-hour deadline.
- Finalist among **3,500+ participants** in **HackOut’25** at DA-IICT, Gandhinagar — directed the team through ideation, solution design, development sprints, and the final stakeholder presentation.

Certifications

- **Agile with Atlassian Jira** – Atlassian (via Coursera) [Credentials](#)
- **30-Day Data Analytics Master Class** – NoviTech R&D Pvt. Ltd. [Credentials](#)
- **Python Programming** – Reliance Foundation Skilling Academy / Skill India [Credentials](#)
- **Odoo × Adani University Hackathon ’26 Participation** [Credentials](#)
- **HackOut’25 Participation** – DA-IICT, Gandhinagar [Credentials](#)
